President's Message

PRESIDENT'S | MESSAGE

Success breeds success. The story of our success is a driving force behind the relentless quest to expand our business. The **BizTech** success started as a dream of one person, but soon became the dream for all workers.

We have built a legacy of excellence, innovation, and trust since our inception in 2002. Operating across the Canada, Bahrain, Saudi Arabia, and Pakistan, we take pride in delivering world-class solutions in Interior Architecture & Design, Business Consulting, General Contracting & Trading, Corporate Business Training, E-House Manufacturing, Global Manpower Supply and HPHT/Heavy Equipment Rental.

Our mission is simple yet profound: *Change That Matters*. We are dedicated to transforming businesses, empowering professionals, and delivering projects that redefine industry standards. With a team of extraordinary and highly qualified experts from around the world, we bring unparalleled expertise to every project, ensuring sustainable success for our clients.

Whether it's driving strategic business growth, executing large-scale contracting projects, delivering internationally accredited training, providing cutting-edge equipment rental solutions, or creating inspiring interior spaces, we remain committed to excellence. Our client-centric approach, combined with innovation and integrity, continues to position us as a trusted partner in diverse industries.

As we look ahead, we remain focused on fostering long-term partnerships, embracing emerging technologies, and delivering value-driven solutions. I invite you to join us on this journey of excellence and transformation.

President

USMAN WARSI

CHANGE THAT MATTERS

OUR PHILOSOPHY

Our Mission:

To empower businesses with innovative, data-driven solutions, internationally accredited training, and expert consultancy, enabling sustainable growth and operational excellence. We are committed to delivering change that matters through strategic insights, quality management, and transformative business practices.

Our Vision:

To be a globally recognized leader in business consultancy, setting the benchmark for excellence, innovation, and strategic impact. We envision a world where organizations thrive through efficient systems, empowered teams, and future-ready strategies.

Our Goals:

- Drive Business Excellence – Enhance organizational performance through internationally recognized consultancy and training programs.
- Foster Innovation – Implement cutting-edge strategies and digital solutions to help businesses stay competitive.
- Ensure Compliance & Quality – Assist clients in achieving and maintaining international standards and certifications.
- Expand Global Reach – Strengthen our presence in the UK, Bahrain, KSA, Pakistan, and beyond.
- Empower People & Organizations – Provide transformational learning experiences and leadership development programs.
- Sustainable Growth – Promote environmentally and socially responsible business practices for long-term success.

Our Philosophy

CHANGE THAT MATTERS

Our Services

OUR SERVICES | BUSINESS CONSULTING | **FEASIBILITY STUDY**

Transforming a good idea into a valid business case is far from simple. A unique company setup allows us to conduct comprehensive feasibility studies that provide the necessary reality check of your project and help you prioritize.

Benefits of Conducting a Feasibility Study from **BizTech**

The importance of a feasibility study is based on organizational desire to “get it right” before committing resources, time, or budget. A feasibility study might uncover new ideas that could completely change a project’s scope. It’s best to make these determinations in advance, rather than to jump in and to learn that the project won’t work. Conducting a feasibility study is always beneficial to the project as it gives you and other Stakeholders a clear picture of the proposed project.

Five Areas of Project Feasibility

A feasibility analysis evaluates the project’s potential for success; therefore, perceived objectivity is an essential factor in the credibility of the study for potential investors and lending institutions. There are five types of feasibility study—separate areas that a feasibility study examines, described below.

- Technical Feasibility
- Economic Feasibility
- Legal Feasibility
- Operational Feasibility
- Scheduling Feasibility

Our Services

OUR SERVICES | BUSINESS CONSULTING | CHANGE MANAGEMENT

No transformation is possible without **Organizational Change Management (OCM)**.

We can assist you with process analysis, technology implementation, strategy development, or operational improvement supported with strong OCM practices.

Our OCM services can help your organizations to enhance your business performance by analyzing existing organizational problems and suggesting real world solutions to solve them.

Based on our exposure to, and relationships with numerous organizations we are aware of industry "best practices."

We have developed our own proprietary methodologies and frameworks to help in identification of problems, and to serve as the basis for recommendations for more effective or efficient ways of enhancing your business performance

Our Services

OUR SERVICES | TECHNOLOGY CONSULTING | DIGITAL TRANSFORMATION

Technology is complex, leveraging it for business advantage **MUST NOT** be!

Get globally experienced consultants to navigate through your futuristic technology roadmaps and goals.

Digital transformation journey should be undertaken by any organization to help them solve their real business problems instead of doing it because it is trend in industry these days .

www.biztech-int.com

BIZTECH INTERNATIONAL

CHANGE THAT MATTERS

Our Services

OUR SERVICES | TECHNOLOGY CONSULTING | ENTERPRISE RESOURCE PLANNING (ERP)

ERP SELECTION & BEYOND

- Systems are evaluated and by the time you reach implementation stage requirements get changed in longer duration programs.
- Careful planning and Value based roadmap analysis needs to be done for best timing for evaluation of systems.
- Technology changes lead to forcing companies to seek more funding for upgrades causing extra pressure on PMO
- Best of Breed Applications or specialized solutions are needed to fulfill seemingly simple requirements during evaluating phase

WE CAN ASSIST YOU FOR

- End to end planning & selection roadmap
- Validation of your system decisions
- Gaining better commercial terms
- System Integrator implementation contracts
- PMO for implementation

THINK HARD

- Standard ERP or Best of Breed Solution?
- Customizable vs Standardized?
- Single Vendor or Multiple Vendors?
- Cloud (SaaS / PaaS) or On Premise?
- Stop gap or long term?

www.biztech-int.com

CHANGE THAT MATTERS

Our Services

OUR SERVICES | TECHNOLOGY CONSULTING | SMAC CONSULTING

SMAC Strategy needs to be carefully planned based on business imperatives rather than adopting it as technology fad

Social

- Social platforms traditionally seen only for consumers have made big way into everyday business.
- We can define framework to leverage social platforms for enhancing your business performance.

Mobility

- Businesses have transformed boundaries of physical space and live mostly in virtual worlds.
- Mobility has become key to interact with your Customers, Suppliers and employees.

Core System

Analytics

- Technologies of today can help you unearth the patterns which were not possible in earlier decades.
- We can help your organization gain competitive advantage by using analytics technologies to transform way you take decisions.

Cloud

- Leverage key capabilities of cloud based solutions to solve your every day problems.
- We help you choose most relevant Cloud technologies aligned to your strategic roadmap.

Our Services

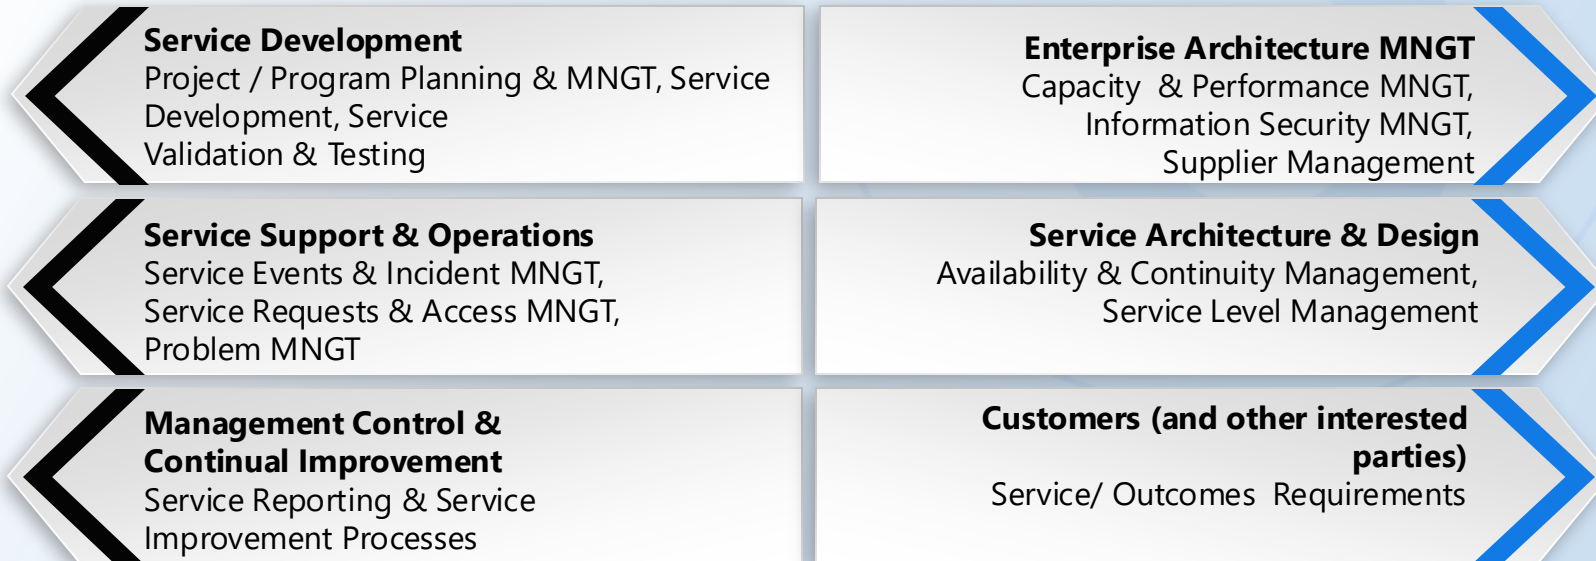

Strategy & Investment Management | Strategic Management for IT Services Financial Management for IT Services | Service Portfolio Management | Business Relationship Management

OUR SERVICES | CIO ADVISORY | IT GOVERNANCE, ITMS & DEVOPS

Every CIO has complex role of enhancing value by leveraging futuristic technologies and mitigating risks associated with underlying technology complexities and vulnerabilities. Business benefits without technological bottlenecks are at the core of success of every CIO. If you don't have established IT Governance framework you have much lesser chances of making successful Digital Transformation.

TRANSITION & CONTROL PROCESS

Service Assets & Configuration Management
Change Management Release & Deployment Management

- Framework needs to be tailored to deal with organization specific maturity.
- Target maturity for each of these processes need to be planned based on risks and challenges of given business.
- DevOps practices need to be embedded in overarching IT Governance framework.
- Every CIO would love to have this streamlined for his organization before embarking on any major Tech Transformation Program.
- We can assist CIOs to achieve their vision of IT Governance.

CHANGE THAT MATTERS

Our Services

OUR SERVICES | CIO ADVISORY | INFORMATION SECURITY

Because it is technically possible to protect every information doesn't mean you spend money in protecting information which is less worthy than money you will spend in protecting it! Protect What Matters, protecting everything is commercially not viable!

Prioritize & Implement Controls
Security controls can be costly and time consuming, prioritize properly.

Assess Controls
Regularly conduct audits and Vulnerability Assessment & Security testing

Take Improvement Actions
Analyze and improve on the weakness to continually improve information security

Categorize Assets
Every asset needs different level of protection depending on impact of it is compromised.

Select Relevant Controls
You need to define primary controls and compensating controls. Chose between Corrective, Preventative & Predictive controls

Testimonials

TESTIMONIALS | WHAT OUR CLIENTS SAY ABOUT US !!

- **BizTech** has unique approach and style where they definitely ensure that our business benefits far outweigh the price they charge. **(Large Family Owned Business Owner)**
- **BizTech** Consultants have in-depth understanding of our industry and we never felt need to explain what we wanted, on contrary they kept coming back and started giving proactive suggestions to improve our business and we were amazed to understand that within one month they knew more about our business than we could imagine. **(Large Real Estate Business Owner)**
- Throughout the whole project, **BizTech** provided a professional and reliable service every step of the way. The team delivered the project end-to-end, demonstrating a determination to deliver to the highest standard. The finished product speaks for itself and we would not hesitate to recommend them **(Holding Owners)**
- Having worked with **BizTech** on a previous project back in 2015, we went back to them because of their professional project management and high quality build. Despite this project being particularly challenging – due to working around our fully operational workshop throughout the development – **BizTech** worked with us to ensure the build was completed safely, on time and on budget. **(Large Manufacturing Unit in Automotive ancillary industry)**
- **BizTech** continues to act as our building contractor of choice. We had a desperate need for additional storage as part of our ongoing expansion program, and **BizTech** pulled out all the stops to complete our new 22,000 sq ft three-bay stock warehouse ASAP, actually finishing the work eight weeks ahead of schedule. We are delighted to recommend them and will not hesitate to use them again in the future. **(EPC Contracting Company)**
