President's Message

PRESIDENT'S | MESSAGE

Success breeds success. The story of our success is a driving force behind the relentless quest to expand our business. The **BizTech** success started as a dream of one person, but soon became the dream for all workers.

We have built a legacy of excellence, innovation, and trust since our inception in 2002. Operating across the Canada, Bahrain, Saudi Arabia, and Pakistan, we take pride in delivering world-class solutions in Interior Architecture & Design, Business Consulting, General Contracting & Trading, Corporate Business Training, E-House Manufacturing, Global Manpower Supply and HPHT/Heavy Equipment Rental.

Our mission is simple yet profound: *Change That Matters*. We are dedicated to transforming businesses, empowering professionals, and delivering projects that redefine industry standards. With a team of extraordinary and highly qualified experts from around the world, we bring unparalleled expertise to every project, ensuring sustainable success for our clients.

Whether it's driving strategic business growth, executing large-scale contracting projects, delivering internationally accredited training, providing cutting-edge equipment rental solutions, or creating inspiring interior spaces, we remain committed to excellence. Our client-centric approach, combined with innovation and integrity, continues to position us as a trusted partner in diverse industries.

As we look ahead, we remain focused on fostering long-term partnerships, embracing emerging technologies, and delivering value-driven solutions. I invite you to join us on this journey of excellence and transformation.

President

USMAN WARSI

BIZTECH INTERNATIONAL
CHANGE THAT MATTERS

OUR PHILOSOPHY

Our Mission:

We believe that any organization can plan a path to success that is profitable, sustainable, and good for all. Along the way, leaders will need a cool-headed outside-in perspective of how their business relates to the world around us. They will need to devise an agile yet robust strategy and, above all, gain a deeper understanding of their people. We help tomorrow's leaders see the big picture, understand its impact, and make the right decisions. We bring you the clarity to lead through transformative learning.

Our Vision:

To be the global leader in delivering transformative training, certifications, and management consultancy, empowering organizations and individuals across the UK, Bahrain, KSA, and Pakistan to achieve excellence, sustainable growth and drive meaningful change

Our Goals:

The world is changing faster than ever, making it challenging for organizations to keep up with economic challenges, consumer demands, employee preferences, political turmoil, technological advancement, and more. On top of external pressures, old habits, cultures, systems, and a reluctance to change can often hold organizations and leaders back. We're here to change that.

Our Philosophy

Corporate Trainings

Why do companies need corporate training?

Corporate training is an essential aspect of any business's growth and success. It is a process of educating and developing employees to improve their skills, knowledge, and abilities to meet the changing demands of their roles and the organization as a whole. The following are some of the key components of corporate training:

Employee onboarding:

This type of training is designed to help new employees understand the organization's culture, policies, procedures, and expectations. It helps them acclimate to their new roles and responsibilities and become productive members of the team.

Compliance training:

This type of training is designed to help employees understand and comply with laws and regulations that are relevant to their roles and the organization as a whole. This can include topics such as workplace safety, anti-discrimination, data privacy, and other compliance related topics.

General employee development:

This type of training is designed to help employees improve their skills and knowledge in areas that are relevant to their roles. This can include topics such as teamwork, communication, problem-solving, and other general skills that are required for success in the organization.

Corporate training is a comprehensive process that includes various components, such as employee onboarding, compliance training, general employee development, leadership development, product knowledge training, and reskilling and upskilling. These components work together to ensure that employees receive the education and development they need to meet the changing demands of their roles and the organization as a whole.

Leadership development:

This type of training is designed to help managers and other leaders improve their skills and knowledge in areas such as leadership, management, decision-making, and other leadership-related topics.

Product knowledge training:

This type of training is designed to help employees understand and effectively use the products and services offered by the organization. This can include product features, benefits, and how to use them effectively.

Reskilling and Upskilling:

This type of training is designed to help employees acquire new skills and knowledge that are necessary for the changing demands of their roles and the organization as a whole. It can include skills such as digital literacy, data analysis, and other modern skills that are required for success in today's business environment.

Supercharge your team's path to success

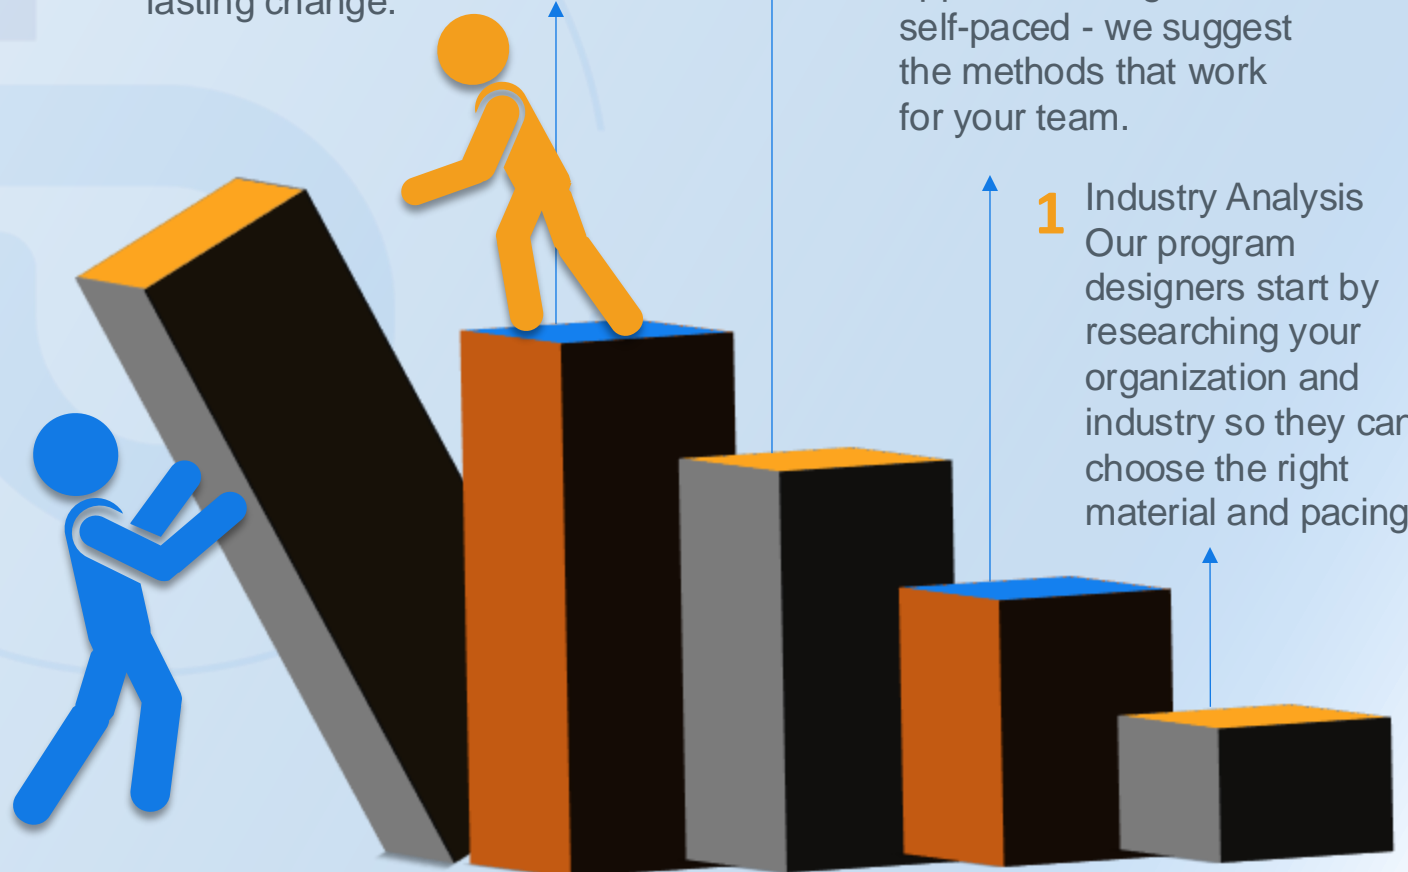

Help your team reach their full potential. Get in touch with our custom program advisor to learn more about **BizTech's** program offerings for organizations. Talk to an advisor.

Custom Programs for Organizations

Get incredible business training, on demand. At every step of the process, we create programs that empower your organization to be the best they can be. All of our programs focus on experiential learning and topics that really matter to your cohort. Programs are delivered any way you need them, including live virtual sessions, in-person experiences, and self-paced online learning.

How Custom Programs Work

We design programs with you, not for you. Ensuring you get the style and content your team needs is our top priority.

4 Impact & Learnings
Debrief on team performance, leadership styles, and unexpected synergies within your cohort to build lasting change.

3 Program Development
Tweak learning modules and topics to match the skill level of your group, budget, location and most importantly, desired impact.

2 Delivery Method
Remote and mobile learning, group work, applied learning and self-paced - we suggest the methods that work for your team.

1 Industry Analysis
Our program designers start by researching your organization and industry so they can choose the right material and pacing.

Testimonials

TESTIMONIALS | WHAT OUR CLIENTS SAY ABOUT US !!

- **BizTech** has unique approach and style where they definitely ensure that our business benefits far outweigh the price they charge. **(Large Family Owned Business Owner)**
- **BizTech** Consultants have in-depth understanding of our industry and we never felt need to explain what we wanted, on contrary they kept coming back and started giving proactive suggestions to improve our business and we were amazed to understand that within one month they knew more about our business than we could imagine. **(Large Real Estate Business Owner)**
- Throughout the whole project, **BizTech** provided a professional and reliable service every step of the way. The team delivered the project end-to-end, demonstrating a determination to deliver to the highest standard. The finished product speaks for itself and we would not hesitate to recommend them **(Holding Owners)**
- Having worked with **BizTech** on a previous project back in 2015, we went back to them because of their professional project management and high quality build. Despite this project being particularly challenging – due to working around our fully operational workshop throughout the development – **BizTech** worked with us to ensure the build was completed safely, on time and on budget. **(Large Manufacturing Unit in Automotive ancillary industry)**
- **BizTech** continues to act as our building contractor of choice. We had a desperate need for additional storage as part of our ongoing expansion program, and **BizTech** pulled out all the stops to complete our new 22,000 sq ft three-bay stock warehouse ASAP, actually finishing the work eight weeks ahead of schedule. We are delighted to recommend them and will not hesitate to use them again in the future. **(EPC Contracting Company)**
